If you miss this registration deadline, contact Charles Potter directly at 916-201-6622 or [Charles.potter@cdtfa.ca.gov](mailto:Charles.potter@cdtfa.ca.gov) to see if there any remaining openings.

## Wilderness First Aid

This is definitely not your local Red Cross first Aid course! The goal of this course is to help the participants deal with medical emergencies in a wilderness setting where qualified medical assistance is more than an hour away and you are the only available medical care for a while. Participants will benefit more if they have completed a basic first aid course.

"At the heart of wilderness medicine is improvisation", says Dr. Eric Weiss in his book "Wilderness and Travel Medicine". By definition, in all wilderness first aid emergencies you are limited to the gear you brought with you and what you can use in your environment. Participants will learn to straighten angulated fractures, clear a spine, reduce a dislocated shoulder and much more using commonly available materials and easily learned techniques.

This a great 16-hour class for those who are looking to experience practical wilderness first aid skills in an outdoor setting. In addition to a half-day of outdoor scenario practice of first aid and emergency leadership skills, this class focuses on practicing skills in and out of the classroom.

A two-year Wilderness First Aid certification is available upon successful completion of this course. There are pre-class reading assignments that we strongly recommended. Upon registration you will receive an email regarding materials to review prior to class.

**DATES: Nov 12-13, 2022 SAT & SUN, 8AM - 5PM each day**

**COST:** \$130 for the two-day class only. If you also need the NASAR card (National Association for Search and Rescue) for attending a BSA high adventure camp, bring an additional \$35 upon arrival.

**Includes:** Wilderness First Aid Handouts  
**Bring** a sack Lunch & Note materials

Only 24 students per class, No refunds

## Basic First Aid training & CPR are recommended.

Overall attendance is limited to 24 participants. Attendance is limited: 3 adult & 2 youth leaders / unit. Youth must be **15 years** or older. An adult must accompany all youth attendees.

## Be sure to bring your paperwork.

All participants must bring a BSA medical form the morning of the first class.

## COVID.

During the hands on training in the practice scenarios of this course, you will be in close contact with other participants. Therefore, masks are currently required only for the practice scenario portion of the training. This COVID protection policy is also subject to change based on local/state requirements.
