

# Help Shape a BSA Makerspace!

Calling all Adult BSA Leaders!

We are exploring interest in creating a year-round Makerspace resource for units and Scouts.

Imagine a shared space where Scouts and leaders could access tools, equipment, training, and hands-on project opportunities including woodworking, 3D printing, electronics, robotics, crafts, STEM projects, and more.

Your feedback will help determine interest, desired resources, and future planning for a possible council or district Makerspace program.

**Scan the QR Code to Complete the Interest Survey**

Thank you for helping us build exciting opportunities for Scouts and leaders!
